5 THE INTERIOR

Continuing the nautical theme, our interior is sleek and simple: cool to the eye but warm to the touch. Tiles are mandatory. Easy to keep clean, they offer a practical bolt of beautiful pattern. And it's fun to use them in unexpected places - in other words, don't restrict them solely to kitchens and bathrooms. Then create a similar effect with textiles, using a clutch of mismatched cushions and stool covers to provide a visual link from zone to zone. Ground it all in clean, crisp white and you quite simply can't go wrong. Easy as a summer day! **ED**
